

# Fine Arts Children's Program

Ongoing at the Edna Vihel Center for the Arts

The Fine Arts Children's Program, offered at the Edna Vihel Center for the Arts in the fall, summer and spring, is designed to foster creativity and discovery through music, visual arts, theatre and creative movement.

Small group work promotes the development of social skills while animated puppetry, theatre games and songs develop language arts skills.

Performing arts activities are facilitated in partnership with the Wolfrap Institute for Early Learning Through the Arts.

Children participate in numerous visual arts projects.

Fine Arts Children's program instructors pose with a student-created snowman made during "Winter Day" activities.
